ATC products effectively protect your technology from environmental influences, being optimally corrosion resistance: Your investment is safeguarded, now and in the future.

Outside size:

Outdoor cabinets production depend on the project requirement for design and dimensions, using either plinth in the ground or installation on the guide plate

Option for Thermoelectric Coolers Indoor/Outdoor

Cabinet can be supplied and equipped by thermoelectronic cooler that minimize downtime and component loss by removing heat around critical components within an enclosure. These compact, low-profile coolers using the Peltier effect allow for cooling of small indoor and outdoor enclosures. No condensers, compressors or filters are required making it a reliable solution for demanding low-maintenance environments.

“ Why choose new ATC Outdoor enclosures “

- Enhanced, robust and solid profile technology
- High performance thermal control and ventilation system.
- Dimensions to meet your needs
- Customer - specific solutions for installation and expansion
